SUMMARY

Aspiring Data Science and AI/ML Engineer with strong skills in Python, statistics, data analysis, and machine learning. Proficient in NumPy, Pandas, and scikit-learn, with a passion for solving real-world problems through data-driven insights and intelligent solutions. Experienced in building full-stack applications and integrating AI models for enhanced user experiences.

PROJECTS

TYPE-TO-WRITE (AI-Driven Knowledge Retrieval)

Python, Whisper, GPT, Next.js

- Engineered a system to convert typed text into realistic handwritten notes and answer user queries from long educational videos.
- Implemented **OpenAI Whisper** for audio-to-text conversion and utilized vector embeddings for accurate semantic search.
- Integrated GPT models to process semantic understanding and retrieve relevant video information efficiently.

STUDENT-ANALYSIS PLATFORM

React.js, Node.js, Chart.js, MongoDB

- Developed a web platform to analyze academic performance using interactive dashboards and data visualization tools.
- Built analytics features for attendance tracking, marks analysis, and performance monitoring with role-based access control.
- Utilized **Chart.js** to provide visual representations of academic trends for students and administrators.

WASTE-MANAGEMENT SYSTEM

Next.js, Node.js, Express, MongoDB

- Created an e-waste management solution focused on collecting, recycling, and safely disposing of electronic waste.
- Managed dynamic product and user data using **MongoDB** and built a secure backend with Node.js.

TECHNICAL SKILLS

Languages	Python, SQL, C++, C, Java, HTML, CSS.
Data Science	Data Cleaning, EDA, Statistical Analysis, Feature Engineering, Preprocessing.
Libraries & Frameworks	NumPy, Pandas, Matplotlib, Scikit-learn, Joblib, React.js, Next.js, Redux.
Tools & Databases	Git, GitHub, Vector Embeddings, VS Code, Jupyter Notebooks, MongoDB.
Core CS & Soft Skills	DSA, OOP, Teamwork, Time Management, Adaptability.

CERTIFICATES

- Basics of Data Science:** Gained foundational knowledge of data analysis, data handling, and basic statistical concepts.
[View Certificate](#)
- Introduction to Prompt Engineering:** Learned how to design and optimize prompts for AI models to achieve accurate and relevant outputs.
[View Certificate](#)
- C++ Programming:** Built a strong understanding of object-oriented programming (OOP) concepts and problem-solving using C++.
[View Certificate](#)
- Programming Fundamentals (Python):** Acquired core programming concepts including variables, loops, functions, and basic problem-solving.
[View Certificate](#)
- Professional Writing:** Developed effective written communication skills for professional and academic environments.
[View Certificate](#)

EDUCATION

2024 - 2028	Chandigarh Group of Colleges, Mohali	B.Tech in AI & Data Science
2022	HP Board	Class 12th (70%)
2021	HP Board	Class 10th (79.8%)
