Profile summary

Entry-Level Data Scientist & AI Engineer with strong foundations in Machine Learning, Natural Language Processing (NLP), and full-stack AI system integration. Experienced in developing end-to-end data pipelines using Python, vector databases, and modern Large Language Model (LLM) architectures. Demonstrated capabilities in predictive analytics, audio-to-text processing, and exploratory data analysis. Passionate about solving complex business problems through statistical modeling and quantitative analysis.

Education

- **Bachelor of Technology in AI & Data Science** 2024–2028
Chandigarh Group of Colleges, Mohali
CGPA: 8.2
- **Senior Secondary Education (Class 12th)** 2022
HP Board
Percentage: 70.0%
- **Secondary School Education (Class 10th)** 2021
HP Board
Percentage: 79.8%

Skills

- **Data Science & Machine Learning:** Data Cleaning, EDA, Feature Engineering, Statistical Analysis, Predictive Modeling, Scikit-learn, PyTorch, Pandas, NumPy, Matplotlib.
- **AI & LLMs:** OpenAI API (GPT-4), Whisper, RAG Pipelines, Vector Embeddings, LangChain, Prompt Engineering.
- **Programming Languages:** Python, SQL, C++, Java, C, HTML, CSS.
- **Tools & Databases:** MySQL, Git, GitHub, VS Code, Jupyter Notebooks.
- **Core CS & Soft Skills:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Problem Solving, Adaptability, Teamwork.

Projects

IronPulse Fitness: Digital Workout & Macro Tracking Platform [\[GitHub\]](#)

- Developed a full-stack digital fitness platform to streamline workout logging, heavy set tracking, and macro nutritional analytics.
- Implemented real-time state management using Redux Toolkit to monitor athlete performance metrics and historical training trends.
- Designed a responsive, custom dark-mode interface utilizing Tailwind CSS and Material UI for high-focus usability.
- **Tech Stack:** React.js, Next.js, Node.js, Express, MongoDB, MySQL, Redux Toolkit, Tailwind CSS, Material UI

PortBuilder: Portfolio & ATS Resume Generator Platform [\[GitHub\]](#)

- Engineered an interactive platform enabling automated generation of SEO-friendly developer portfolios and ATS-optimized resumes.
- Built real-time live layout previewing using Zustand for state management and dynamic section reordering across modular UI blocks.
- Integrated one-click PDF print rendering and raw HTML export engine, reducing portfolio deployment setup time by 80%.
- **Tech Stack:** Next.js 14, Tailwind CSS, Zustand, Server Actions, REST API Routes, MySQL, SQLite

Interactive Sales Analytics & Profitability Dashboard [\[GitHub\]](#)

- Built time-series ML models (Holt-Winters, Ridge Regression) across 63k+ transactions, achieving an R^2 of 0.978 and 3.42
- Developed a dynamic What-If pricing engine to model demand elasticity (E_d), ad spend shifts, and gross margin variance.
- Designed a responsive dark-mode analytics dashboard connected to Node.js REST APIs and a Python data science pipeline.
- **Tech Stack:** Tech Stack: Next.js, TypeScript, Python, Node.js/Express, Tailwind CSS, Recharts, Statsmodels, Docker.

Achievements / Participation

- Solved 200+ Data Structures & Algorithms (DSA) problems across platforms like LeetCode.
- Built and deployed 3+ end-to-end Machine Learning & AI applications with live user interface integrations.
- Maintained a consistent coding streak on GitHub, contributing to open-source project repositories.
- Actively participated in campus hackathons and technical workshops focused on AI deployment and Data Science workflows.

Certifications

- **Claude Code in Action** — Certified by Anthropic. [\[Link\]](#)
- **Basics of Data Science** — Certified by uniAthena. [\[Link\]](#)
- **Introduction to Prompt Engineering** — Certified by Simplilearn. [\[Link\]](#)
- **C++ Programming & DSA Fundamentals** — Certified in OOP and Data Structures. [\[Link\]](#)
- **Programming Fundamentals (Python)** — Issued by HackerRank. [\[Link\]](#)
